## Fibre Tube Plug

**Product Name:**

Fibre Tube Plug

**Part Number:**

Refer to Conco Standard Size Chart for Fibre Tube Plugs.

**Application:**

For emergency and temporary plugging of condenser and heat exchanger tubes.

**Description:**

- Made of vulcanized cloth fibre rod.
- Machined to fit specific size tubes.
- One piece plugs are easily installed, safe to use, corrosion resistant and easily removed.
- The plug's hygroscopic action expands when the plug comes in contact with water.
- Plugs can be used in temperatures up to 230°F and pressures to 400 psi.

**Storage Information:**

Prior to use, should be stored in a cool, dry place, sealed in plastic bags.

**Auxiliary Equipment Required:**

Hammer.

**Determination of Quantity:**

Two for each tube to be plugged (one at each end).
